

## Ossen Medicare Outreach, Education and Advocacy Project

With support from the Jeffrey P. Ossen Family Foundation, the Center for Medicare Advocacy is working to advance access to Medicare and necessary home and community-based services, through education, advocacy, and collaboration in the greater Windham/Eastern CT area.

An Advisory Team of service organizations and leaders is working together to enhance knowledge about Medicare and the allied organizations and services available for individuals in Eastern CT.

Individual experiences and outcomes gathered through the project help encourage systemic change to help all Medicare beneficiaries get the care they need.
